Features:

- Route wires along concrete, brick, mortar, cinder blocks and other hard surfaces - without drilling
- Two specially-hardened drive pins securely fasten wires and prevent cord rotation
- Install in seconds with only a hammer
- Integral strain relief grips to hold clips on wire - no need to hold clip while installing it
- Small, aesthetically pleasing and won't interfere with decor. Clear versions are virtually invisible
- Weather-proof, ultraviolet (UV) stabilized material protects against deterioration
- Insulated to protect against shorts during installation / removal
